ACADEMIC SESSION 2021-22
WORKSHEET (SELF –ASSESSMENT)

Subject: English

Assignment No. : 12

Allotment Date: 12 March 2022

S. No.	QUESTIONS	MARKS	NATURE
1	<p style="text-align: center;">SECTION A- READING [10M]</p> <p>Read the passage carefully given below. [ANY FIVE]</p> <p>The choices we make on a daily basis—wearing a seat belt, lifting heavy objects correctly or purposely staying out of any dangerous situation—can either ensure our safety or bring about potentially harmful circumstances.</p> <p>You and I need to make a decision that we are going to get our lives in order. Exercising self-control, self-discipline and establishing boundaries and borders in our lives are some of the most important things we can do. A life without discipline is one that’s filled with carelessness.</p> <p>We can think it’s kind of exciting to live life on the edge. We like the image of “Yeah! That’s me! Living on the edge! Woo-hoo!” It’s become a popular way to look at life. But if you see, even highways have lines, which provide margins for our safety while we’re driving. If we go over one side, we’ll go into the ditch. If we cross over the line in the middle, we could get killed. And we like those lines because they help to keep us safe. Sometimes we don’t even realize how lines help to keep us safe.</p> <p>I’m not proud of this, but for the first 20 years of my life at work, I ignored my limits. I felt horrible, physically, most of the time. I used to tell myself “I know I have limits and that I’ve reached them, but I’m going to ignore them and see if or how long I can get by with it.” I ran to doctors, trying to make myself feel better through pills, vitamins, natural stuff and anything I could get my hands on. Some of the doctors would tell me, “It’s just stress.” That just made me mad. I thought stress meant you don’t like what you do or can’t handle life, and I love what I do. But I kept pushing myself, travelling, doing speaking engagements and so on— simply exhausting myself.</p> <p>Finally, I understood I was living an unsustainable life and needed to make some changes in my outlook and lifestyle.</p> <p>Based on your understanding of the passage, answer <u>ANY FIVE</u> questions from the six given below.</p>	5M	Understanding

	<p>a)Why has ‘living on the edge’ become popular? b)What things are important for a disciplined life? c)Explain the phrase ‘potentially harmful circumstances’. d)What is the message conveyed in the last paragraph of the passage? e)Find the word from the passage which means the same as ‘temporary’? f)Find two colloquial words used in the passage.</p>				
2	<p>Read the passage given below. Read the following excerpt from a case study titled “Demographic Change in Tribal Habitats”.</p> <p>It is a demographic change nobody would celebrate. About 55 per cent of the country’s tribal population now resides outside their traditional habitats. It is known that migration of tribal population, increasingly distress-driven, has been increasing. But the recently-released Tribal Health in India report by the Union Ministry of Health and Family Welfare has brought out some worrying aspects to this known development.</p> <p>More than half the country’s 104 million tribal population now resides outside India’s 809 tribal majority blocks. To support this fundamental change in tribal habitation, the report cites the Census 2011 that found a 32 per cent decline in the number of villages with 100 per cent tribal population between 2001 and 2011.</p> <p>“There is a movement of tribal people from tribal to non-tribal areas, possibly in search of livelihood and educational opportunities,” says the report. But it is insistent on a livelihood crisis that is triggering this exodus.</p> <p>India’s tribal population is over-dependent on agriculture and forest-related livelihood sources. While 43 per cent of non-tribals depend on agriculture, 66 per cent of the tribal population survives on these primary sector livelihood sources. But in recent decades, the number of tribal farmers is coming down, and more are becoming agricultural labourers. In the past decade, 3.5 million tribals have quit farming and other related activities. Between 2001 and 2011 census reports, the number of tribal cultivators reduced by 10 per cent while number of agricultural labourers increased by 9 per cent. This indicates a declining return from direct farming or people simply don’t have the resources to do farming. In the absence of no other alternative, they are joining the informal labour force. “Displacement and enforced migration has also led to an increasing number of Scheduled Tribes working as contract labourers in the construction industry and as domestic workers in major cities. Currently, one of every two tribal households relies on manual labour for survival,” says the report.</p> <p>Distribution of Scheduled Tribe population by States- 2011</p> <table border="1" data-bbox="415 1822 1125 1892"> <thead> <tr> <th data-bbox="415 1822 850 1892">Name of State</th> <th data-bbox="850 1822 1125 1892">% of Distribution Tribe</th> </tr> </thead> </table>	Name of State	% of Distribution Tribe	5M	Analytical
Name of State	% of Distribution Tribe				

	<table border="1"> <tbody> <tr> <td>Madhya Pradesh</td> <td>14.7</td> </tr> <tr> <td>Maharashtra</td> <td>10.1</td> </tr> <tr> <td>Odisha</td> <td>9.2</td> </tr> <tr> <td>Rajasthan</td> <td>8.9</td> </tr> <tr> <td>Gujrat</td> <td>8.6</td> </tr> <tr> <td>Jharkhand</td> <td>8.3</td> </tr> <tr> <td>Chhattisgarh</td> <td>7.5</td> </tr> <tr> <td>Andhra Pradesh</td> <td>5.7</td> </tr> <tr> <td>West Bengal</td> <td>5.1</td> </tr> <tr> <td>Karnataka</td> <td>4.1</td> </tr> <tr> <td>Assam</td> <td>3.7</td> </tr> <tr> <td>Meghalaya</td> <td>2.5</td> </tr> <tr> <td>Other</td> <td>11.6</td> </tr> </tbody> </table>	Madhya Pradesh	14.7	Maharashtra	10.1	Odisha	9.2	Rajasthan	8.9	Gujrat	8.6	Jharkhand	8.3	Chhattisgarh	7.5	Andhra Pradesh	5.7	West Bengal	5.1	Karnataka	4.1	Assam	3.7	Meghalaya	2.5	Other	11.6

Other	11.6																												
	<p>Q 2. On the basis of your understanding of the passage, answer <u>ANY FIVE</u> questions from the <u>SIX</u> given below.</p> <p>Q 1. What is the percentage of tribal population residing outside the traditional habitats?</p> <p>Q 2. Why there is a movement of tribal people from tribal to non-tribal areas?</p> <p>Q 3. How many tribals have quit farming and related activities between 2001 and 2011 census report and what is the percentage of tribal cultivators and agriculture labourers have decreased or increased?</p> <p>Q 4. What has led to a rise in the number of tribal population working as contract labourers?</p> <p>Q 5. According to the data provided, which states has, above one-tenth of the tribal population?</p> <p>Q 6. According to the data provided, which state has the second largest and the second lowest tribal population?</p>																												
3	<p>SECTION-B WRITING & GRAMMAR [10M]</p> <p>Below is a graph given showing birth and death rates in a country from 1901 to 2101. Write an analytical paragraph in about 120 words.</p>	5M	Communication																										

<p>4</p>	<p>The following paragraph has not been edited. There is one error in each line. Identify the error and write its correction against the correct blank number.</p> <p style="text-align: right;">Error Correction</p> <p>Only those who work hard gets glory and success in life. E.g. ___ ___</p> <p>Nothing great could be achieved without effort. (a)___ ___</p> <p>A student can never comes out with flying colours unless he(b)___</p> <p>___</p> <p>Has really worked hard throughout a year © _____</p>	<p>3M</p>	<p>Critical Thinking</p>
<p>5</p>	<p>Read the conversation between Raghav and Ravi and complete the passage that follows.</p> <p>Raghav: Ravi, Varun and I are going to watch the cricket match tomorrow. Would you like to join us?</p> <p>Ravi: I would love to, but I have to take my father's permission first.</p> <p>Raghav: You must let me know by this evening because I have to arrange for the passes.</p> <p>Ravi: I will do so as soon as I get permission.</p> <p>Raghav informed Ravi that Varun and he were going to watch the cricket match the next day. He asked Ravi (a) _____. Ravi replied that he would love to, but he had to take his father's permission first.</p> <p>Raghav told him (b) _____ because he had to arrange for the passes. Ravi said that he would do so as soon as he would get permission.</p>	<p>2M</p>	<p>Interdisciplinary</p>
<p>6</p>	<p>SECTION C- LITERATURE [20M]</p> <p>Answer the following questions in 40-50 words: [ANY SIX]</p> <ol style="list-style-type: none"> 1. What did the bakers wear in the Portuguese days, and when the author was young? 2. Notice the use of the word 'turn' in the first line, "I think I could turn and live with animals...".What is the poet turning from? 	<p>2x6=12</p>	<p>Evaluation</p>

	<ol style="list-style-type: none"> 3. How old do you think Amanda is? How do you know this? 4. Why did Custard cry for a nice safe cage? Why is the dragon called “cowardly dragon”? 5. Which qualities are common in all three characters of the play ‘The Proposal’? 6. Do you think Richard’s mother was too indulgent when she bought him cameras,telescopes,microscopes? Give two reasons to support your answer. 7. Mention two things you would have done,other than what M Loisel did, to help resolve the problem of the lost necklace. 		
7	<p>Answer the following questions in 100-120 words: [ANY TWO]</p> <ol style="list-style-type: none"> 1. The author describes the things that Valli sees from an eight-year-old’s point of view. Can you find evidence from the text for this statement? 2. Lomov and Natalya have a complex relationship. Reflecting upon their character traits, develop a conversation between Natalya and Chubokov where they are discussing about Natalya’s future husband. 3. “Mother is the first teacher of a child”. Evaluate the quote given above in the light of contribution of Richard Ebright’s mother in ‘making him a scientist’ 	2x4=8	HOT

4	<p>निम्नलिखित में से किसी एक विषय पर संकेत बिंदुओं के आधार पर 150 शब्दों में अनुच्छेद लिखिए।</p> <p>(क)- समाचार-पत्र एक : लाभ अनेक</p> <p>संकेत बिंदु</p> <ul style="list-style-type: none"> • जिज्ञासा पूर्ति का सस्ता एवं सुलभ साधन • रोजगार का साधन • समाचार पत्रों के प्रकार • जानकारी के साधन । <p>अथवा</p> <p>(ख) सुरक्षा का आवरण ओजोन :</p> <p>संकेत बिंदु</p> <ul style="list-style-type: none"> • ओजोन परत क्या है? • मनुष्य की प्रगति और ओजोन परत • ओजोन नष्ट होने का कारण • ओजोन बचाएँ जीवन बचाएँ। 	6	Critical Thinking and Problem Solving
5	<p>(क)- अपनी शैक्षिक एवं अन्य उपलब्धियों का उल्लेख करते हुए अपने विद्यालय के प्रधानाचार्य को प्रार्थना देने छात्रवृत्ति जिसमें लिखिए पत्र-का उल्लेख किया गया हो।</p> <p>अथवा</p>	5	Communication Skills

WORKSHEET (SELF –ASSESSMENT)

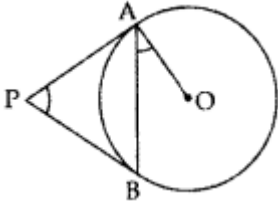

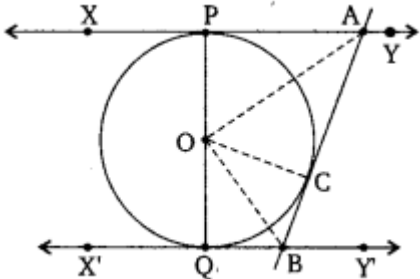

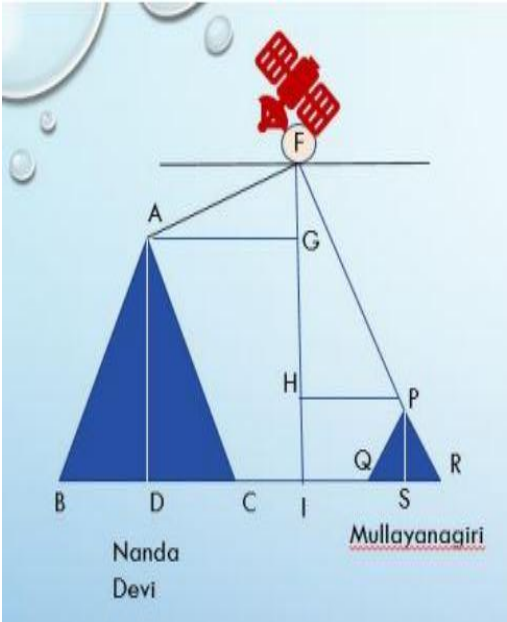

Subject: Mathematics

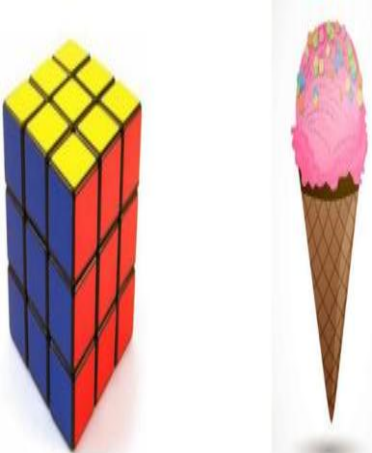

Assignment No. : 12

Allotment Date: 12 March 2022

S. NO.	QUESTIONS	MARKS	NATURE										
1	Find two consecutive positive integers, the sum of whose squares is 365. OR Solve the quadratic equation $2x^2 - 7x + 3 = 0$ by using quadratic formula.	2	Understanding										
2	Find the number of solid spheres, each of diameter 6 cm that can be made by melting a solid metal cylinder of height 45 cm and diameter 4 cm	2	Application										
3	The width of 50 leaves of a plant were measured in mm and their cumulative frequency distribution is shown in the following table. Make frequency distribution table for this <table border="1" style="margin: 10px auto;"><tr><td>Width (in mm)</td><td>≥ 20</td><td>≥ 30</td><td>≥ 40</td><td>≥ 45</td></tr><tr><td>Cumulative frequency</td><td>50</td><td>44</td><td>28</td><td>2</td></tr></table>	Width (in mm)	≥ 20	≥ 30	≥ 40	≥ 45	Cumulative frequency	50	44	28	2	2	Interdisciplinary
Width (in mm)	≥ 20	≥ 30	≥ 40	≥ 45									
Cumulative frequency	50	44	28	2									
4	If the 3rd and the 9th terms of an A.P. are 4 and -8 respectively, then which term of this A.P is zero.	2	Application										
5	The Median of the following distribution is 35. Find the value of x: <table border="1" style="margin: 10px auto;"><tr><td>Class Interval</td><td>0–10</td><td>10–20</td><td>20–30</td><td>30–40</td></tr><tr><td>Frequency</td><td>2</td><td>3</td><td>x</td><td>6</td></tr></table>	Class Interval	0–10	10–20	20–30	30–40	Frequency	2	3	x	6	2	Evaluation
Class Interval	0–10	10–20	20–30	30–40									
Frequency	2	3	x	6									

6	<p>In the given figure, PA and PB are tangents to the circle with centre O. If $\angle APB = 60^\circ$, then calculate $\angle OAB$,</p>  <p style="text-align: center;">OR</p> <p>A chord of a circle of radius 10 cm subtends a right angle at its centre. Calculate the length of the chord (in cm).</p>	2	Analytical Thinking
7	Find the sum of the first 22 terms of an AP in which $d = 7$ and 22 nd term is 149.	3	Evaluation
8.	<p>The angles of depression of the top and bottom of a 50 m high building from the top of a tower are 45° and 60° respectively. Find the height of the tower and the horizontal distance between the tower and the building,</p> <p style="text-align: center;">OR</p> <p>A man standing on the deck of a ship, which is 10 m above water level, observes the angle of elevation of the top of a hill as 60° and the angle of depression of the base of hill as 30°. Find the distance of the hill from the ship and the height of the hill.</p>	3	CRITICAL THINKING Evaluation
9	<p>In figure, XY and X'Y' are two parallel tangents to a circle, with centre O and another tangent AB with point of contact C intersecting XY at A and X'Y' at B. Prove that $\angle AOB = 90^\circ$.</p> 	3	Analytical thinking
10	If -5 is a root of the quadratic equation $2x^2 + px - 15 = 0$ and the quadratic equation $p(x^2 + x) + k = 0$ has equal roots, find the value of k.	3	Problem solving
11	<p>Draw a line segment AB of length 8 cm. Taking A as centre, draw a circle of radius 4 cm and taking B as centre, draw another circle of radius 3 cm. Construct tangents to each circle from the centre of the other circle.</p> <p style="text-align: center;">OR</p> <p>Construct a tangent to a circle of radius 4 cm from a</p>	4	Evaluation

	point on the concentric circle of radius 6 cm.												
12.	<p>Find the mode of the following frequency distribution:</p> <table border="1"> <thead> <tr> <th>Class</th> <th>0–6</th> <th>6–12</th> <th>12–18</th> <th>18–24</th> </tr> </thead> <tbody> <tr> <td>Frequency</td> <td>7</td> <td>5</td> <td>10</td> <td>12</td> </tr> </tbody> </table>	Class	0–6	6–12	12–18	18–24	Frequency	7	5	10	12	4	Interdisciplinary
Class	0–6	6–12	12–18	18–24									
Frequency	7	5	10	12									
13	<p>Case study based question 1</p> <p>A Satellite flying at height h is watching the top of the two tallest mountains in Uttarakhand and Karnataka, them being Nanda Devi (height 7,816m) and Mullayanagiri (height 1,930 m). The angles of depression from the satellite, to the top of Nanda Devi and Mullayanagiri are 30° and 60° respectively. If the distance between the peaks of the two mountains is 1937 km, and the satellite is vertically above the midpoint of the distance between the two mountains.</p>  <p>a Find the distance of the satellite from the top of Nanda Devi is</p> <p>b. Find the distance of the satellite from the top of Mullayanagiri</p>	2+2	Interdisciplinary										

14	<p data-bbox="250 149 626 180">CASE STUDY QUESTION 2</p> <p data-bbox="250 258 1049 390">On a Sunday, your Parents took you to a fair. You could see lot of toys displayed, and you wanted them to buy a RUBIK's cube and strawberry ice-cream for you. Observe the figures and answer the questions:-</p> <div data-bbox="261 428 630 877">A 3x3x3 Rubik's cube is shown on the left, with its top face yellow, front face red, and left face blue. To its right is a strawberry ice cream cone with a pink swirl of ice cream and a brown wafer cone.</div> <p data-bbox="250 890 1032 1024">a Find the length of the diagonal if each edge measures 6cm b What is the curved surface area of hemisphere (ice cream) if the base radius is 7cm?</p>		Interdisciplinary

WORKSHEET (SELF –ASSESSMENT)

Subject: Science

Assignment No. : 12

Allotment Date: 12 March 2022

S. NO.	QUESTIONS	MARKS	NATURE
1	Q1. Draw a schematic diagrams of an electric circuit comprising of 3 cells and an electric bulb, ammeter, plug-key in the ON mode and another with same components but with two bulbs in parallel and a voltmeter across the combination.	2	Information
	Q2. Name the organs producing sperms and ova respectively in humans.	2	
	Q3. Choose an element from period 3 of modern periodic table that matches the description given below in each instance. Give reason for your choice.	2	
	(a) It has a similar structure to diamond. (b) It has variable valency and is a member of oxygen family.		
2	Q4. A 9Ω resistance is cut into three equal parts and connected in parallel. Find the equivalent resistance of the combination.	2	Understanding
	Q5. In an experiment, Mendel obtained 1014 plants out of which 787 were having round seeds and 227 had wrinkled seeds in F ₂ generation.	2	
	a. What is the approximate ratio obtained in F ₂ generation? Under which law of Mendel do you find this ratio? b. Why is this law so called?		
	Q6. (a) How many isomers are possible for the compounds with molecular formula C_4H_8 ? Draw electron dot structure of branched chain isomer. (b) How will you prove that C_4H_8 and C_5H_{10} are homologous?	2	
3	Q7. Define a solenoid. Compare the magnetic field produced by a solenoid with that of a bar magnet?	2	HOT
	Q8. What is electromagnetic induction? Explain how the movement of a magnet towards or away from a coil carrying a galvanometer produce current? Write the rule to find the direction of current in this above coil.	3	
4	Q9. What is meant by electrical resistivity of a material? Derive its S.I. unit. Describe an experiment to study the factor on which the resistance of a conducting wire depends.	3	Interdisciplinary
	Q10. List the changes in habit that people must adopt to dispose non-biodegradable waste, for saving, the environment,	3	

<p>5</p>	<p>Q11. Shivani tried to cross a homozygous purple flower variety of pea plant (PP) with white flower variety of pea plant(pp). Mention the phenotype and genotype of the F₁ generation of off springs. If the off springs of the F₁ generation are self bred. What will be the phenotypic and genotypic ratios of the F₂ generation? State Mendel's law of dominance.</p> <p>Q12. Study the data of the following three categories A, B and C.</p> <table border="1" data-bbox="253 365 1000 747"> <thead> <tr> <th>Category</th> <th>Name of the element</th> <th>Atomic mass</th> </tr> </thead> <tbody> <tr> <td rowspan="3">A</td> <td>Li</td> <td>7</td> </tr> <tr> <td>Na</td> <td>23</td> </tr> <tr> <td>K</td> <td>39</td> </tr> <tr> <td rowspan="3">B</td> <td>N</td> <td>14</td> </tr> <tr> <td>P</td> <td>31</td> </tr> <tr> <td>As</td> <td>74</td> </tr> <tr> <td rowspan="3">C</td> <td>B</td> <td>10.8</td> </tr> <tr> <td>Al</td> <td>27</td> </tr> <tr> <td>Ga</td> <td>69.7</td> </tr> </tbody> </table> <p>(i) From the given three categories A, B and C, pick the one which forms Dobereiner's Triads.</p> <p>(ii) Why did Mendeleev placed elements of category A, B and C in three different groups?</p> <p>(iii) Is Newland law of octaves applicable to all the three categories? Give reason to justify your answer.</p>	Category	Name of the element	Atomic mass	A	Li	7	Na	23	K	39	B	N	14	P	31	As	74	C	B	10.8	Al	27	Ga	69.7	<p>3</p> <p>3</p>	<p>Analytical Skill</p>
Category	Name of the element	Atomic mass																									
A	Li	7																									
	Na	23																									
	K	39

	Al	27																									
	Ga	69.7																									
<p>6</p>	<p>Q13. Three elements 'X', 'Y' and 'Z' have atomic numbers 7,8 and 9, respectively.</p> <p>(a) Arrange these elements in the decreasing order of their atomic radii.</p> <p>(b) State their position (group and period number) in the modern periodic table.</p> <p>(c) Write the formula of the compound formed when 'X' combined with 'Z'.</p>	<p>3</p>	<p>Critical Thinking and Problem Solving</p>																								
<p>7</p>	<p>Q14. Michael Faraday was an experimental physicist. He introduces the concept of the magnetic line of force to represent a magnetic field visually. According to his experiment, when bar magnet is surrounded by little bits of iron filings, each a little magnet of its own. By tapping the surface, the iron filings arrange themselves in a particular pattern. They respond to an unseen presence— what Faraday called it “lines of force.” The following sketch shows the lines of force due to a bar magnet on the accumulated action on little iron filings.</p>	<p>4</p>	<p>Evaluation</p>																								

4

- a. What does the degree of closeness of magnetic field lines near the poles signify?
- b. What happens if a bar magnet is cut into two pieces along its length?
- c. i. Draw a diagram indicating uniform magnetic field.
ii. What is the direction of magnetic field lines outside a bar magnet?

Q.15 In a cross between plants with purple flowers and plants with white flowers, the F_1 generation had all purple flowers. When F_1 generation was self-bred, the F_2 generation gave rise to 100 individuals, 75 of which had purple flowers. Make a cross and answer.

- (a) What is the ratio of purple flowered plants in F_2 generation?
- (b) What are the genotypes of F_2 individuals?
- (c) If F_2 generation gave rise to 400 individuals, how many flowers would be pure homozygous? Give the genotype of these plants.
