Subject: Science   **Assignment No. : 8**
Allotment Date: 30 January 2024

S.NO.	QUESTIONS	MARKS	NATURE
Q1	Multiple choice questions: i. What percent of nitrogen is present in air? a) 78% b) 21% c) 1% ii. When air is in motion, it is called - a) heating b) wind c) clouds	1x2=2	Information
Q2	Fill in the blanks: **i.** _____ is a mixture of gases. **ii.** _____ shows the direction in which the air is moving at that place. **iii.** The component of air that supports burning is called _____. **iv.** Most aquatic animals like fish, tadpole, crab, and shrimp have special organs for respiration called_____.	4x1=4	
Q3	Match the following : A B **i.** Fish air **ii.** Oxygen gill **iii.** Carbondioxide burning **iv.** Winnowing suffocation	4X0.5 =2	Understanding

Q4	i.	Define composition of air.	4x2=8	HOT
	ii.	Name the gas which support burning?		
	iii.	What do you mean by nitrogen?		
	iv.	Define atmosphere.		
Q5	i.	What happens when air comes in contact with cold surface?	2x3=6	Interdisciplinary
	ii.	List five activities that are possible due to the presence of air.		
Q6	i. How will you prove that air support burning?		3x2=6	Analytical Skill
	ii. Why earthworms comes out of the soil only during heavy rain? iii. Why you got scolded by your parents when you breathe through your mouth.			Critical Thinking and Problem Solving
Q 7.	Read the following passage and answer the following: It may be a little difficult to imagine our life without plastics. Things like Toys, shoes, bags, pens, combs, tooth brushes, buckets, bottles, and water pipes etc, all are made of plastic. The use of plastics in itself might not create so much of a problem. Problems arise when we use plastics excessively and are ignorant about ways of disposing their waste. We often use plastic bags to store cooked food items. Sometimes these bags may not be suitable for keeping eatables. Consuming food packed in such plastic bags could be harmful to our health.Many a time shopkeepers use plastic bags that have been used earlier for some other purpose. Sometimes bags collected by rag pickers are also used after washing them. Use of such recycled plastic bags to keep food items could be harmful for our health. For storing eatables we must insist on use of plastic bags that are approved for such a use. All kind of plastics give out harmful gases, upon heating or burning. These gases may cause many health problems,including cancer, in humans.You must have noticed that people often fill garbage in plastic bags and then throw it away. When stray animals look for food in these bags, they end up swallowing these. Sometimes, they die due to this. 1.Explain how throwing of garbage in plastic bags is harmful for animals? 2.Explain how the burning of plastic can affect our health?		2x2=2	Communication Skills
